YOUR BLOOD WILL HELP

With our men punching into the Siegfried line against Nazis who are fighting with determination to stem the march into the Reich, the road toward Berlin is not what we can call an "open road." At least, it will not be so long as Hitler and his generals can prevent it from becoming that.

The determined resistance of the enemy is spilling American blood as our boys push forward. But the millions of pints of blood donated are saving the lives of countless soldiers who fall. Maybe the pint of blood which you gave some months ago has already pulled an American doughboy through. Maybe the pint you will donate soon again will be the very thing that is needed at the critical moment.

The Red Cross needs your help. Red Cross donor centers are located in 35 principal cities throughout the nation and mobile blood donor units visit surrounding communities.

If you haven't given a pint of your blood, do so at once. If you have, then give again!

GETTING OUT THE VOTE

The emphasis which both parties are putting on getting out the vote calls attention to the fact that in spite of political speeches by either candidate, the real election results are achieved, not in one grand effort from the top, but rather in the lowly precincts.

That is the reason why Governor Dewey made it a point to contact as many party workers as he possibly could in his trip across the country. That is why President Roosevelt in his broadcast of October 5 directed his talk to the members of the local Democratic organizations.

There is little doubt that the ballot volume this year will fall considerably below the approximate 50 million mark of 1940. The Gallup poll estimates that the November figure may drop below 40 million. Other observers place it around 42 million. With millions of men in the armed forces and with millions of workers having moved, a drop in the volume of voting would not be unexpected, but it ought not to decrease as much as present estimates indicate that it will.

We say it ought not, because if all those who are eligible to vote will appoint themselves a committee of one to see that they do it, we can have an increase in the balloting rather than a decrease.

THE WEEK OF AWAKENING

Through every possible channel the message of Fire Prevention Week (October 8 to October 14) is being carried to the public. Nothing that can be said or written can adequately express the importance of every individual taking part in this national campaign against fire. Accidental fire has done more damage to the war effort than most people will ever be able to comprehend. Much of the damage is immeasurable because it involves intangibles.

Among the measurable losses, however, have been: camouflage manufacturing, railroad equipment, paper mills, essential rubber products, army ordnance depots and warehouses, lumber yards and important automotive equipment. Vital food supplies also were destroyed. Some single fires caused damage running into the millions.

Fire is an enemy agent—but one that can be controlled by taking the well recognized preventive steps. The purpose of fire prevention week is to wake people up to this fact.

COLUMBUS DAY

Exactly 452 years ago—on October 12, 1492—Columbus discovered America and the New World soon beckoned men from every corner of the globe.

In later years they came to the new continent—came courageously from all of the nations of Europe, drawn to the new land by their love of freedom.

There were men from every nation—from England and France and Russia and all the rest. There were men of every faith—Catholics, Protestants and Jews.

Together they toiled and sacrificed shoulder to shoulder, hewing their way through wilderness. Towns sprang up. Colonies were founded.

Finally a new nation was born, dedicated to liberty and to the equality of all mankind.

Today a great world war rages to defend and preserve those ideals for which the founding fathers fought. On the battle lines again are men of every creed—Catholics, Protestants and Jews—men whose ancestry is rooted in all the nations of the earth.

Shoulder to shoulder they are struggling again—struggling as fellow-Americans with a common purpose, the defense of human liberty. And here at home men and women of every creed and of every nationality are working together on the production lines to hasten the day of victory.

The victory is in sight though the enemy has tried vainly to avert it by crushing the unity that has made America great.

With bigotry and hate, the foe has tried to turn us against each other—the Christians against the Jews, the native against the foreign-born, the worker against the employer.

But true Americans know too much their background to be fooled by tactics such as these. Unity, they know, made this nation what it is. Only unity will preserve it.

And so, on this Columbus Day, let us pledge anew our loyalty to the principles of liberty and equality and fair play on which was founded this great land—the land that Columbus discovered 452 years ago.

SAFEWAY FLOUR FESTIVAL

THIS IS FIRE PREVENTION WEEK
BE CAREFUL WITH FIRE!

Bake these easily, for October delight

TO MAKE this evening's dinner appetizingly different, why not bake some drop biscuits? Very little time is required!

DROP BISCUITS

Follow your regular 2-cup recipe for baking-powder biscuits, but use enough milk (about a cup) so mixture will *drop* from teaspoon on an ungreased baking tin Bake in a hot oven (450° F.) for 12 to 15 minutes. Makes about 16 biscuits

Even more appetizing drop biscuits result if you add (depending on personal tastes) ½ cup of raisins or chopped nutmeats or diced cheese to the mixture before kneading it. Or, use tomato juice instead of milk for the moistener!

And for dessert, how about

ICED APPLE DUMPLINGS

Using a standard pastry recipe, roll the pastry ⅛-inch thick and cut into 6-inch squares. Wash and peel 6 whole medium-sized cooking apples; remove cores and place one apple in the center of each pastry square. Fill each core-hole with brown sugar and a dash of cinnamon and nutmeg, and ⅓ tbsp butter or margarine. Dampen edges of pastry and draw up around apples, pressing securely together. With sharp tined fork, prick dough well all over. Place in well-greased drip pan. Bake in hot oven (450° F.) 15 minutes. Reduce heat to moderate oven (350° F.) and bake 45 minutes or until done, basting every 15 minutes with syrup made by boiling 1 cup granulated sugar, ½ cup water, and 2 tbsps. butter or margarine. When baked, frost tops immediately with medium-thick powdered sugar butter icing

READING & WRITING

BY *Edwin Seaver* AND *Robin McKown*

"BLACK MAIL" by Henry Hoke is being talked about as the most important and sensational book of its kind since "Under Cover." It tells the true story of an American businessman who turned himself into a one-man crusade in an effort to get at the facts behind the use of the U. S. mails by Nazi propagandists and their sympathizers.

HENRY HOKE

As executive manager of the Direct Mail Advertising Association, Henry Hoke was in a better position than most to find out what individuals and what organizations were flooding the U. S. mails with propaganda designed to soften up the American people and make us useless in the war.

His investigations led to an exposure of the misuse of the congressional franking privilege and put some well-known political figures in a very uncomfortable position. They led also to the indictment and conviction of Nazi agents and their little helpmates in this country.

* * * *

Richard Tregaskis, author of "Guadalcanal Diary," has followed that highly successful book-of-the-month with an account of his experiences in Italy and Africa, "Invasion Diary." One story he tells is of the private of the 36th Division famous for his foul language. When the 36th hit the beach, they were subjected to shattering artillery bombardment and the profane fellow, lying in a foxhole, began to pray in a loud voice, "Oh, God, please save me," and he continued in this vein. Another private, in a near-by foxhole, recognized the voice, and shouted, "Hey, Joe, why don't you knock off crying for help and talk to somebody you know?"

* * * *

Chinese ways are strange and mysterious to American salesmen, Donald Dunham explains in his book, "Envoy Unextraordinary." One of them was negotiating with a Chinese broker to do business with him. After he had left, the American Consul who had conducted the meeting explained that his British competitor had offered the Chinese a larger percentage. The salesman jumped. "But why didn't he say so? I might have been able to shave off a bit here and there." But the Consul advised him to sit by and wait. "If he likes you, he'll sign anyway," he said. And sure enough the next day he was told that his offer was accepted. The Chinese had turned down the Britisher because he was said to mistreat his ho seboy.

PAPER SAVING

When salvage paper is collected, to avoid fire hazard, the Department of Agriculture recommends that it be stocked neatly and tied in bundles. Paper boxes should be flattened, then tied in tight bundles. A metal trunk or bin with a tight cover is the safest place to store paper. Next best is to stack paper bundles on a cement floor away from furnace, stove or hot pipes. Soiled or oily paper is useless for salvage and is also a fire hazard and should be destroyed.

MRS. AMERICA MEETS THE WAR - -

The sergeant's sister and the welder's wife, like Judy O'Grady and the colonel's lady, are sisters under the skin. And no matter which one pays a penny too much for carrots, it comes out of her pocket and the government's. So when she refuses to pay over ceiling prices for things, she's not only protecting herself but helping everybody.

Planning on new upholstery for that shabby davenport and chair before the holidays? Then remember that nearly all services are under OPA ceiling prices and your upholstery job is in that category. Among the many services OPA is protecting for you and covering with ceiling prices are: laundry and dry cleaning, shoe repairs, and electrical appliance repair.

Know what the culinary equivalent on a chinchilla coat is? It's pineapple upside-down cake! What with pineapple costing 80 points for a No. 2 1-2 can, all home-canned fruits are growing in importance in the American menu. Try upside-down cake made with some of the peaches from the backyard trees—unbeatable in appearance and flavor and point-free!

Those leather-soled moccasins beloved of the bobby-sock brigade are going to take shoe stamps from now on the OPA tells us. Many of the soft leather-soled ones have been defined as house slippers and sold stamp-free because they were meant to be worn only indoors. But no more—it looks as though there will be increased demands for pop's shoe stamp.

Bakers may send fruit cakes and other products of their own bakeries to employees in the armed forces War Food Administration has ruled. General permission for the Christmas exception has been granted to the entire baking industry, due to many requests and the fact that supplies of wheat and other baking ingredients are now more plentiful.

Adams Center Announces Courses

Public speaking, lip reading, and practical short story writing for adults are now available along with all grades of Gregg shorthand, typing, office practice, Comptometer, bookkeeping, and office machines from 8:30 in the morning until 3:30 in the afternoon at the Adams Adult center, 750 Eddy street (near Van Ness).

Adams Adult center is a part of the San Francisco public schools system. Classes are free. The work is all practical and applied, and students from the school qualify for highest paying positions in their field.

New students may enroll in all the classes for short-term rapid instruction so as to fit into the field in which they desire to work in the shortest possible time, Carl F. Bash, principal, announced today.

Our fighting men are doing their share. Here at home the least we can do is put 10% of our income in War Bonds for our share in America.

Specialist Stresses Importance Of Feet

The importance of strong, healthy feet in well fitting shoes cannot be over stressed, according to Miss Ethelwyn Dodson, extension specialist in clothing, Agricultural Extension service, University of California.

"The foot is a human machine providing the body with natural locomotion. Like all machines, the better it is understood and cared for, the better it performs. Unlike man-made machines, worn parts cannot be replaced," Miss Dodson said.

"Shoes should furnish protection, not interfere with growth and development, hinder efficiency of movement, or cause pain," she pointed out.

Miss Dodson has prepared a leaflet, "Feet and Shoes," which covers the subject thoroughly. She discusses buying shoes; shoes for the first seven years and from eight to eighty; hosiery; care of the feet, and care of shoes.

Those interested may obtain this leaflet, without cost, from the Agricultural Extension service, University of California, Berkeley, or from the Agriculture Extension Service offices in the counties.

Our boys must keep on fighting—we must keep on buying WAR BONDS until victory is won. Keep on BACKING THE ATTACK.

BUBBLE-DANCER — is U. S. war slang describing a dish washer. Even a dish washer has wartime duties. Yours is to work and buy more War Bonds in the 3rd War Loan.

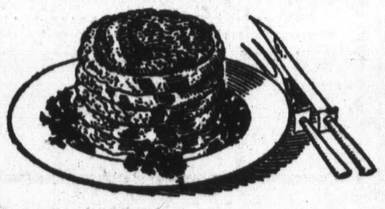
MEAT IS ESSENTIAL

7 GOOD REASONS FOR
Meat on the Table



1. *Meat for Complete Proteins.*
2. *Meat for B Vitamins.*
3. *Meat for Iron and Copper —build good, red blood.*
4. *Meat for Phosphorus—a dietary essential.*
5. *Meat for Easy Digestibility.*
6. *Meat for Palatability.*
7. *Meat for "Satiety Value"— that lasting satisfaction after the meal.*

The meat rationing system was worked out to insure each family's getting a fair share of the civilian meat supply. Your government recognized the fact that meat is necessary for the health of every person in the country.

Don't neglect this important food in meal planning, simply because it may not be convenient to purchase. Spend your red points wisely, for sensible cuts of good meats. Let FARMERS' quality be your guide.
